Children With Behavioral Difficulties

Objective

This course aims at training educators to support families with children affected by behavioral difficulties.

Target Learners

This course has been designed for social educators and social volunteers who are interested in supporting families of children with behavioral difficulties. It aims to increase and improve the competences of social educators, social volunteers for supporting parents who have children with behavioral difficulties.

The course equips the participants with necessary skills and competences:

- gain an understanding of parental attitudes, characteristics of children with behavioral difficulties
- develop an understanding of communication skills and implement practical approaches for empowering parents
- comprehend stress coping skills and the ability to control reactions that develop during stress and support parents in tackling issues connected with their children behaviors
- improve capacity in designing and managing parent-training activities

Content of the learning unit:

- Parental Attitudes
- Characteristics of Children with Behavioral Difficulties
- Communication Skills
- Coping with Stress
